Yo, I used to check out lyrics and pump the formats  
build with skill with technique, computer a that  
my lyrical form is clouds on your brain storm  
I get hyped, think, thought, flow, acrobat  
sink the track, pump the track  
dance missions clubs like pores react by strobe visions  
and hurry up, more reflects on the dance floor  
blowing up, and having mad people showing up  
packin' crowds, jam packed venues  
needles collapes while atmospheres continuies  
sprinkle that  
win it like that, move it like that, hit it like that  
the melody is phat  
yo, I'm on the energy source  
the cosmic boss with Prodigy  
flippin' astrology  
my intilects devour  
with diesel power

Chorus:

close your mind drastically, fantastically  
repeat 3x

win, spin back, rewind, diesel power  
close your mind drastically, fantastically  
it has to be, automaticly  
check it out, you'd better work it out  
change to another route  
my techniques, stratagies, abilitys  
will leave cords in mics hanging like spring leaves  
you will try so fast between the here and now  
lyrical tactics, vocal gymnastics  
ease and ???, you get swept up  
smacked up, backed up  
your crew's all cracked up  
check it, slow pitch, who's quick, you can't stick  
my metaphor range is strange as angles  
you get tangled  
twisit inside affections

channels repeat, complete, can't be beat  
check the hour texture  
mind adventure, exploit the point  
into tracks to devour  
my intilects proceed  
with diesel power

#### Chorus

back attack the whack packs you faxin' me  
you don't want none high quality action be  
still standing, damaging your other manning  
quick reverse, potent as the first verse  
my amplifier, blows on your world's higher  
world sire, cuts like a barb wire  
record player, I pull up on you everyday  
fast forward, I move and I swing toward  
exit load, put your brain in the right mood  
select and mix  
the man will perfect and fix  
heads lightly, bite me, copy, xerox, cock sand blocks  
you can't knocks, I'm out there  
up-beat, liftin', shiftin'  
persistant intelligent kingpin flippin' astrology  
as I roll with Prodigy  
with diesel power
