(Intro)

I like happy things
Cause it's like a dyslexic smile
Haha
Charles Hamilton

(Verse 1)

I overthink
I think I said too much
I stayed in bed too much
This sucks
(Yeah)
I over-drink
I shouldn't feel this sick
There's a razor on my wrist
But I don't feel this shit
(Somebody somebody help me out) Plays in
background 8x
See death with a smile
So while you all live forever
I'm stressed for a while

(Chorus)

This is what I know
I'm all alone
Everywhere I go
I'm calling home
You can't help me, no
Don't call my phone
And if you feel like this
You know you're all alone
All alone

(Verse 2)

I looked to heaven for defined intervention
And god says, "Charles, stop whinin' and bitchin', now"
I'm in a position to, live a little better
??and get sent to heaven than a place forever??
I need to get it together

(Bridge) x2

Don't judge me

You don't know me
You don't love me
You don't own me

(Chorus)

This is what I know
I'm all alone
Everywhere I go
I'm calling home
You can't help me, no
Don't call my phone
And if you feel like this
You know you're all alone
All alone

(Verse 3)

(Somebody somebody help me out) Plays in
background 16x
No matter how hard I try
I still manage to cry
I can't escape my mind
So pardon me while I just whine
Glass of wine in my...

(Chorus)

This is what I know
I'm all alone
Everywhere I go
I'm calling home
You can't help me, no
Don't call my phone
And if you feel like this
You know you're all alone
All alone

(Outro)

I'm NOT crazy!
Hehaha
I'm not crazy...
