Yo A couple more stacks from a couple more tracks  
She gon love it more when I show up at her door  
That's what the rush is for back to the hustle board  
I want a woman that want it all  
The fuck is wrong with that  
I'm a nigga from the streets while she's in a penthouse  
I be seein her breezy, but she seein...  
But I don't care I could feel it in my stomach  
I could run it, she want it  
If not than God must be a woman  
That stay blunted stay spreading her love  
But she's cool when she high so someone get her a  
dutch  
Baby I swear I be lookin ahead  
You read a book you read  
I massage your foot at the foot of the bed  
Now that I got your undivided  
Let's get lost in the melody the drums could find us  
I want you alone please or now  
Either way you got me on my knees wow

[Chorus:]

Get your pretty ass over here girl I ain't even tryna play  
with you  
I said get your pretty ass over here girl that ain't even  
what I came to do  
I said get your pretty ass over here girl gotta say it like  
that so you could feel it  
Gotta do it like that so you could feel it gotta give it to  
you like that so you could feel it, feel it?

Oh golly, mommy flyer than polly  
She said "Why these crackers all jock me? "  
I said "Cause you make em whistle, got me? "  
She's cocky got on her "I can not be stopped" jeans  
And her armagaddas ride around the block tee  
Mad fly mad subtle but a hot piece  
Or a cold woman I'm warming up to  
Sure enough she was doin some warming up too  
I mean, I'm kinda cool, I admit  
If the industry is like high school, I'm the shit  
My music's legit, fucked too many chicks

That's before I was even considered new in this shit  
This was back when it was struggle or be doin this shit  
So we could talk until we blue in the lips  
As long as I could pick which two I wanna kiss  
My favorite color is pink, and I'm used to being zipped,  
ya dig?

[Chorus]

I'm not your man his resume is better  
But I learned yesterday that I should never say never  
Maybe if you let some faith mayweather yesterday  
We could sit with tomorrow (tamara) which what I  
wanna call my daughter  
Accept it baby I never made a separation between the  
mess I made and the getaway  
Perhaps it's an illusion, that's the conclusion  
Or listening to tracks that can trap me in rumors  
Is she talking to me? Is it someone else when I picked  
up?  
I give up unless you're up and I could give it to you  
You're still smiling either way what's the difference to  
you  
I hope this... is getting to you and getting to you  
You don't get it do you? maybe you do and I just like to  
say that you don't  
Prepare for the day that you say that you won't until  
then,  
I'll be laying alone

[Chorus]

I dunno if I'm infatuated or... or if I'm just like every  
other guy  
I'm just gonna ask you one question, do you think I give  
a fuck what every other guy feels about you?  
Charles Hamilton

Said I really want you baby [x14]
