I put myself up
So you can't reach me
I'll disconnect
Stay at home
I'll knock myself down
So you can't see me
I'm still on hold hold
I'm still on hold hold

BRIDGE:

You played yourself out
By living this easy way
Still asking my why
This life is killing me

So babe

CHORUS:

Right! Right!
If you want him just say so baby
You're the heavenly ether
Right! Right!
You're returning the great big favour
Or is it just not quite there?

Head to head can't find no answer
Don't understand, don't really care
Face to face - Damn filled with anger
Still on hold hold
Still on hold hold

BRIDGE:

You played yourself out
By living this easy way
Still asking my why
This life is killing me

So babe

CHORUS:

Right! Right!

If you want him just say so baby
You're the heavenly ether
Right! Right! you're returning the great big favour
Or is it just not quite there?

Head to head can't find no answer
Don't understand, don't really care
Face to face - Damn filled with anger
Still on hold hold
Still on hold hold

CHORUS:

Right! Right!
We'll be together some day baby
You're the heavenly ever
Right! Right! returning the great big favour
Or is it just not quite there?
(Repeat in different order while fading)
