"Mind The Light"

Visit "[Mind The Light](#)" on MotoLyrics.com

Corporate castles
In street of destruction
Chaos - is just introduction
Bound together by the oath of trade
In - a sealed room - 'cause they're so afraid

CHORUS:

Lock your mind into mine and mind the light

Ten floors down the tired street preachers
Still reviving the fallen creatures
Ten floors I'm going higher I'm a bullet
I'm a holy pyre

CHORUS:

Lock your mind into mine and mind the light
Lock your mind into mine and mind the light

Turnt my back on house of avalon
Travelled far past the beggars of shalom
To see these towers and to meet their mighty kings
Downtown junkies creamed with gasoline

CHORUS:

Lock your mind into mine and mind the light
Lock your mind into mine and mind the light

(I'm learning to sacrifice)

Corporate castles bathing in high voltage light
Like a holy pyre reaching for the sky
I'm standing here with myriads of power
Turnt my back to abandoned destinies
No going back to manic misery
10 Floors ? and still I'm going - higher

CHORUS:

Lock your mind into mine and mind the light
Lock your mind into mine and mind the light

Corporate castles

In street of destruction
Chaos - is just introduction
Bound together by the oath of trade
In - a sealed room - 'cause they're so afraid

Ten floors down the tired street preachers
Still reviving the fallen creatures
Ten floors I'm going higher I'm a bullet
I'm a holy pyre

CHORUS:

Lock your mind into mine and mind the light
Lock your mind into mine and mind the light
(Repeat 'til fade)
