In the middle of the highway  
As you ride down the road  
Just get that feeling  
It's all so black and bald

And then there's my face  
When you're drivin' the desert sand  
Well open my hand  
Well open up the land, yeah

Well everyone now bring your car to me  
From the mother of earth to the depth of the sea  
Well don't raise any hand for me  
When ya n-n-need me, yeah

In the middle of the highway  
As you ride down the road  
Just get that feeling  
It's all so black and bald

And then there's my face  
And a-drivin' the desert sand  
Well open my hand  
Well open up the land, yeah

Well everyone now bring your car to me  
From the mother of earth to the depth of the sea  
Well don't raise any hands for me, no no  
When ya n-n-need me, yeah oh
