We purge your words of wisdom  
With darkness at our side  
Burning down your kingdom  
To honour those who died

We never remain silent  
When we're ordered to  
We'll always be outspoken  
In everything we do

With a thousand voices  
We cry out our tears  
Our solitude and anger  
Our hopes and fears

Our open hearts bear wisdom  
For everyone to see  
To be a guiding light  
For those in misery

We will wage this war forever  
On each and every battleground  
With every word and song  
With every move and sound

For a thousand years from now  
Our souls will echo on  
In your hearts and minds  
Although we are gone
