As I sit along the shore  
Of my wishes and my dreams  
My Pride lies scattered on the floor  
With the fading sunlight beams

My thoughts embraced by nothingness  
Mindwaves passing by so slow  
I long for your tender caress  
As innocent as young fresh snow

As the silence fades away  
I gather strength for another day  
Another Day I've to go through  
Another day here, without you X2

To flee from my addiction  
I go out, to seek the voices  
That speak an empty benediction  
Of hollow words and empty choices

But these words, they keep me sane  
Until the moment you return  
Where I let go of all the pain  
Free of anger and concern

As the silence fades away  
I gather strength for another day  
Another Day I've to go through  
Another day here, without you X2

When I hold you in my arms  
The silence, that I did evade  
Turns into voices screaming joy  
And my pain to rest is laid

And I feel your warmth and love  
As it into me doth flow  
I come to only one conclusion  
I will never let you go
