Faint transitory sign of beauty
Without destroying it
I quietly held it close

In the moon's hiding place
Searching taking in the pain of fate

The worry draw wear unnoticed stands in the way
driven to the wall
Touched by the entrance of sadness

CHORUS 1

In the sunlight heading towards the end
Way too glaring, tomorrow can't be seen
The you that looked back, beyond time
Is gazing just like an innocent girl

In these arms awakening
Your sadness is nothing but so sad

Before the point of maddening, I yearn for you
Always be by my side, so I'll never be separated from
you

CHORUS 2

Coloured by the sin raining down incessantly
In the dried path keep on wandering
This love is touched by no one
I fear that it is a turning against God

The you in the mirror, with that upside down smile
The breaking thread of dreamns spun together is cut

CHORUS 3

Eternally sinking in that prayer
Not even one answer, the water surface is swaying
The crumbling nyou isn't saved
In order to dandle you, you were put to sleep at that
time

Repeat CHORUS 1
