

L'ame Immortelle "Winter Of My Soul"

Visit "[Winter Of My Soul](#)" on MotoLyrics.com

My soul is frozen to the ground
My mind is crippled, left no sound
I'm lying here await my doom
For my future won't be coming soon

Lying lifeless deep inside
All that's left of joy and pride
Waiting for the final hour
Like a bloodred, withered flower

In this night I'll achieve my goal
It's a night in the winter of my soul

Please give me deliverance
Oh, grim reaper let me dance
One final time before I die
When time has come no one will cry

Forgotten like a winter morning
Life's decision wheel keeps turning
No one hears the silent mourning
Deep inside my heart is burning
