Hey babe, gonna be all right  
Dance naked in the moonlight  
Rock and roll has survived

Come on and spin the wheel  
Tell me how you like the deal  
Was it good for you as it was for me?

Life is what goes on in between your plans  
Does anyone else hear that noise?  
You tried to warn me, but I could not understand  
I never really had a choice

Come on now, baby  
Come on now, baby  
Come on now, baby  
Don't you cry?

Let's go and drive all night  
The highway feels just alright  
Can you hear the call of the one's  
That came before you?

I hope it's understood  
When anything that feels that good  
Emotion turns to motion  
And that's the truth

It's no use running from a thing that you can't see  
When you got no place left to hide  
Be the person that she wanted you to be  
Keeping it real inside

Come on now, baby  
Come on now, baby  
Come on now, baby  
Don't you cry?

Come on now, baby  
Come on now, baby  
Come on now, baby  
Don't you cry?

Come on now, baby  
Come on now, baby  
Come on now, baby  
Don't you cry?

Come on now, baby  
Come on now, baby  
Come on now, baby  
Dry your eyes

Come on now, baby  
Come on now, baby  
Come on now, baby  
Don't you cry?

Come on now, baby  
Come on now, baby  
Come on now, baby  
Don't you cry?
