I need the highway wind, blowing in my hair
Five thousand miles I've roamed, now I'm gettin' there
This is my destiny, the way that I choose
Don't need no one to talk about love and blues

'Round, 'round, up and down
Move so fast, never touch the ground
High, high, touch the sky
Don't come down, don't make me try

Lost in space or any other place
Putting my dreams on the moving place
Gypsy, electric gypsy
'Round I'll go, yeah

I remember way back when I was just like you
Yeah, I gave myself to live but I didn't have a clue
I got it suddenly, Chromium steel
Seven hundred and fifty reasons why I can't stand still

Oh no, here I go
Gotta keep moving, gotta let go
'Nother town, 'nother girl
Can't stand still 'till I've seen the world

And I've seen the world when I cry
Get in my spaceship, watch me fly
Gypsy, electric gypsy
'Round I blow, yeah, ooh, ahh

Don't need no one to tell me to settle down
Life in the fast lane suits me to the ground
This is my destiny, the way that I choose
Don't need no one to talk about love and blues

'Round, 'round, up and down
Move so fast, never touch the ground
High, high, touch the sky
Don't come down, don't make me try

Lost in space or any other place
Putting my dreams on the moving place

Gypsy, electric gypsy
'Round I'll go

Gypsy, electric gypsy
Gypsy, electric gypsy, oh, oh, oh
Gypsy, electric gypsy, 'round I blow
Gypsy, electric gypsy, 'round I blow
Gypsy, electric gypsy, 'round I blow
Gypsy
