I watched you burn your hand in my flame  
tempting fate again and again  
faith is not enough something's gotta change  
where is the love without pain  
riding on a homebound train  
ticket to a place in the sun  
like a villain on the run train ain't got going home  
don't turn your back on a loaded gun

Well I'm sorry darling I must confess  
and as much as I need your caress  
you'll keep taking till your very last breath  
so put your arms around me  
leave me with your kiss of death

Crying out your heart in the rain  
pouring it all down the drain  
when the pain takes control  
touch leaves you cold  
it's better sometimes not to prey

Well I guess that's just the way that it goes  
why love dies nobody knows  
but I love you till my very last breath  
don't say a word

just leave me with your kiss of death

Well they told me that you left yesterday  
death is just a heartbeat away  
and they both reached the end  
together ascend  
never to be parted again

Well I'm sorry darling I must confess  
and as much as I need your caress  
you'll keep taking till your very last breath  
so put your arms around me  
leave me with your kiss of death  
well I guess that's just the way that it goes  
why love dies no one knows  
but I love you till my very last breath

don't say a word  
just leave me with your kiss of death
