"Slap In The Face"

Kamikaze hit man
Love on the run
No mercy for the children
Of the night
You tangle on my brain
You drive me insane
I want what you got
No surprise

Cold sweat my hands shake

No point getting excited
She's on the case
Knock you off your rocker
Like a slap in the face

You fuss you fight
You think you got the right
Make love the camera never lies
We got the power
We got the moves
Fourteen thousand killer watts
Just to make you groove

And it's just
Like smoking lightning

No point getting excited
She's on the case
Knock you off your rocker
Like a slap in the face
