Check it out

ya'll know what time it is  
back in the flesh LA symphony  
puttin in down pound pound for pound  
five foot four three two one

you know who the crew is energetic ruthless  
radio gonna play this till your old and toothless  
even your mom like the LA symph crew  
more than just music life channel through the binsu  
even if it aint what you into we kick the essentials  
stainless is sinful, complex is simple  
we steady movin with our eyes on the prize  
you never wanna shake us with them other guys  
so we sock it to the brain than i spit it through mesh  
i do right to every word so they can penetrate flesh  
its like a key on a kite sparkin thoughts to bring light  
i threw caution to the wind and let my words take flight  
you can forget the fads you can forget the trends  
i am finding a meaning a force that transcends  
on culture race space and all of time  
with others in my heart and there is peace in my mind  
from birth til death i can repeats flesh dress  
above your view of the sky stands out weightless  
speak life to the breathless shine for the breathless  
for the blind ? track for evidence

Chorus

I'm trying to make it in a world full of apathy  
asking God what else does he have for me  
I'm timeless i am a beautiful mess  
through the joy through the pain through the worst and  
best  
Im timeless

Make it like no other

Im timeless  
over the years to advance  
Im timeless

this is time tell me what you expect  
Im timeless  
everywhere out doin ?  
Silence Anger and violence races of hate crimes  
peace rallies and riots ?  
Finded without measure  
and there you gonna find a little glimse of forever  
we smile and we rap ironic we walk  
its more than a moment we live what we talk  
so timeless you'll find us still doin our thing  
many moons from now the symph shall remain  
its that voice in your head speaking life through your  
thoughts  
its your mind over matter when money you aint got  
through your highs and lows and the blows that lock  
doors  
its the things that make you grow like when you reap  
what you sew  
im praying for wisdom cause we all have influence  
somebodys watching me making mental notes of my  
movements  
its not just music its my life and how i use it  
dont want to be foolish and lead my family through this  
cause what the puerto rican yo forever 21  
nevermind the time remind myself there's plenty to be  
done  
and when its said and done and the music still remains  
musicians come and go but my leagacy sustains

#### Chorus

I'm trying to make it in a world full of apathy  
asking God what else does he have for me  
I'm timeless i am a beautiful mess  
through the joy through the pain through the worst and  
best  
Im timeless

Time will excell with time  
Im timeless  
MEant to be read in the history  
Im timeless  
a couple words spoke in here for clarity  
Im timeless  
Hip hop and new heights  
time is less (x 5)
