Ten dead soldiers in the middle of the table
And what do I know about love
I wanna run away from every damn thing and just run
But baby this is harder than I ever expected
What if I lose my mind
This long dark night of the soul is sure long and dark

Chorus:

I wanna trade my Chevy for a Cadillac life and drive on
and on
Crank that motor to a hundred and ten and then wave
goodbye
I'm gone
I'm gone

Cause the drinkin' don't stop and the drugs chime in
But I can quit any time that I want
Since the concrete jungle came tumblin' down we're all
lost

Chorus:

I wanna trade my Chevy for a Cadillac life and drive on
and on
Crank that motor to a hundred and ten and then wave
goodbye
I'm gone
I'm gone

Gasoline get me to a place I love and I promise that I'll
never look back

Chorus:

I wanna trade my Chevy for a Cadillac life and drive on
and on
Crank that motor to a hundred and ten and then wave
goodbye
I'm gone
I'm gone
