

L.P. "Never Was"

Visit "[Never Was](#)" on MotoLyrics.com

I know you lie I'm well aware
I just want to be that dumb
It's like it never happened
It's like it never was

I know you lie I'm well aware
I just want to be that dumb
It's like it never happened
It's like it never was

I did everything you wanted
But it wasn't what you want
I did everything you needed
But it wasn't near enough

Life's a bitch and then we die
Said before and still applies
You try to make it happen
And suffer all along

I know you lie I'm well aware
I just want to be that dumb
It's like it never happened
It's like it never was

It's like it never happened
It's like it never was

I know you lie I'm well aware
I just want to be that dumb
It's like it never happened
It's like it never was
