Let's go back and talk about the beginning  
And what we liked so much about each other then

Chorus:

And I hope you're happy with your ordinary life  
It's the wrong place  
The wrong time  
The darkside

Hoppin' bars in the summertime  
And no one cared if you lost your mind  
But you were not amused, no you were not amused

Chorus:

I hope you're happy with your ordinary life  
It's the wrong place  
The wrong time  
The darkside

I wanted to say the right thing-I really did  
But I know you're right  
And I hope you're happy with your ordinary life
