With your long black hair  
Fallin' down your face  
Red lips and lethal pout  
Send me to heaven  
Seein' is believin'  
Baby, you're so strange  
Something about you makes me sweat  
When I call your name  
Oh oh oh oh  
Goin' nowhere  
Oh oh oh oh  
Gettin' further out of control  
Wild Obsession - in the heat of the night  
Wild Obsession - and baby you know it ain't right  
She's got the sun and the moon in a velvet glove  
Showers of diamonds fall from high above  
She's a vicious queen  
She's a little girl  
I know she's a cornerstone of the underworld  
Oh oh oh oh  
Goin' nowhere  
Oh oh oh oh  
Gettin' further out of control  
Wild Obsession - in the heat of the night  
Wild Obsession - and we both know it ain't right  
Wild Obsession - runnin' beneath the neon stars  
Wild Obsession - Tearin' us all apart  
Oh oh oh oh  
Goin' nowhere  
Oh oh oh oh  
Gettin' further out of control  
Wild Obsession - in the heat of the night  
Wild Obsession - and we both know it ain't right  
Wild Obsession  
Wild Obsession - Tearin' us all apart
