

L2M "Goodbye"

Visit "[Goodbye](#)" on MotoLyrics.com

I don't know what to say,
And why I feel this way.
And when I think of you,
I know it's sad but true.

Now that the bond is broken,
Due to all the words that were spoken.
And now I got to let go,
This is what I want you to know.

Goodbye (goodbye~)
My friend (oh my friend~)
This time, this is the end.
So long (so long my friend~)
I hope that one day, we will meet again.

I don't know what to do,
Cause now I'm here without you.
How can I heal this pain?
When all there is, is blame.

I'm looking for a new sky,
So I can mend this broken heart.
And now I got to let go,
This is what I want you to know.

(Repeat Chorus)

*Bridge
I cannot wait, for these tears to dry.
I must move on right now and leave the pain inside.
Give me the strength, cause I cannot wait.

(Repeat Chorus x2)

I don't know what to say,
And why I feel this way...
