You and me 'till the wheels fall off

You and me, we just fit  
I'm addicted and I can't quit

You and me 'till the wheels fall off

You're enough to make me hot  
What we got can't be bought

You and me 'till the wheels fall off

You and me, we just fit  
I'm addicted and I can't quit

You and me 'till the wheels fall off

People say you're a few quarts low  
I don't care, let's go, go, go

You and me 'till the wheels fall off
