[Incomprehensible]

Are you the half that's gonna swallow the gun?
Exactly where do you stand
You seem to have trouble being human

You've got a habit of startin' a fight
You wanna punch out somebody's light
Messin' with other people's lives
What makes you think that you've got that right

Cool out
Yeah, what's your problem?
Cool out

You've got a habit of startin' a fight
You wanna punch out somebody's light
Messin' with other people's lives
Just what makes you think that you've got that right

Cool out
Yeah, you're a psycho
Just cool out

Cool out
