Don't you break me so that you can fix me I won't  
thank you, next time. Don't you make me weep so that  
you can wipe the tears as the hero, not even close.

Hold me now. Don't wait 'til I fall to try and catch me.  
Heart failure. On the way down, on the way back down.

Push me around and keep it up 'til I'm on the edge, I  
free-fall. Be at the bottom ready to catch me if you  
miss, what will you do then?

Hold me now. Don't wait 'til I fall to try and catch me.  
Heart failure. On the way down, on the way back down.

Please this hurts too much. You know you'll say sorry  
tomorrow, let's skip this part. I've got no fight left in  
me, I've got one fall left 'til I cannot be rescued  
again.

Hold me now. Don't wait 'til I fall to try and catch me.  
Heart failure. On the way down, on the way back down.

Don't wait 'til I fall, hold me now. On the way back  
down, hold me now. Don't wait 'til I fall, to try and  
catch me. Hold me now. Don't wait 'til I fall to try and  
catch me. Hold me now. Don't wait 'til I fall to try and  
catch me.

On the way back down (Don't wait till I fall to try and  
catch me). Hold me now (On the way down, on the way  
back down).
