[verse 1]

Time flies

Still remember all the good times spent

Trips to the beach and watchin' horror flicks

Even though your mind wasn't with each other

You showed each other love like sister and brother

When i was small everyday you picked me up from school

Loved you so much cause you were soulful

Told me everything i know from youth till i grown

So why you waiting to tell me how the problems grown

You died on your birthday

It was my worst day

Call you dad know but i did it from my first day

Just like my dog 18 with mad cream

Popped out on the drug scene

Had cats from other teams

Hatin

Went from juvy hall to willy(?)

In 6 months time Makaveli and Philli

But it's hell on everybodys tell

Gun shots to your back on valentines day

I miss you bell(?)

[hook-Miss Jones]

Didn't we almost have it all

But love was all we had worth giving

The rise with you was worth the fall of yah

Cause loving you made life worth living

[verse 2]

17 when i meet you

Never bet you would help me bring a life to the world

And bless in you

I thought we were destined to have our names tattooed

But i guess your depression got the best of you

With test in you things are gonna work out

But you got scared and had to murk out

Suicied ain't the only way

It's the lonely way

Now everybody just left me with death to except

But i still had you
I still had my boo
We were right there at the height of everything
The height of your carrer i still wear my ring
You said you wouldn't leave me like everyone else
One bullet took you instead
Infared
Now i can't even pick up the phone to call you
Damn we had it all too

[hook 2 Miss Jones]
Didn't we almost have it all
The nights we had until the moring
You know you'll never love like that again
Didn't we almost have it all

[verse 3]
Everbody didn't know what to do about the lost
Just let it past
But i'll never forget
Death is the final set
But i survive
And try my best to keep the memories alive
Yo everbody
Say we be

[Miss Jones]
Though were apart
It just seems so far
But i know in my heart
I will always love you
[repeat]

[hook one]

[Miss Jones]
Though were apart
It seems so far
But i know in my heart
I will always love you
[repeat till fade]
