My baby changes like the weather one day she's warm  
and then she's cold  
But some day I'll understand her better in a thousand  
years or so  
But as long as there's blue sky above me and as long  
as there's life in my hand  
My baby knows I always will be her lovin' understandin'  
man

My baby rocks me like the ocean don't know which way  
she's gonna go  
But maybe some day she'll find direction in a thousand  
years or so  
But as long as there's blue sky...  
[ guitar ]  
But as long as there's blue sky...  
Her lovin' understandin' man
