(Gary Harrison - David Wills)

Lately it seems our love's grown routine we've let life
get in the way
This payin' the bills is takin' the thrills away from us a
little each day
We've forgotten how to love each other like we did
when it first begin
So tonight let's try to remember and make it special
again.

Let's make it special again
Turn on some music and turn off the light
And go to bed real early and stay up all night
Open up a bottle of our favorite wine like we used to do
back then
Let's put it all back together and make it special again.

Let's turn off the phone play like no one's at home we
won't answer the door
Between you and me there'll be no time for sleep cause
I'll be comin' back for more
We'll lay out of work in the mornin' but really we'll be
sleepin' in
Gettin' in touch with each other makin' it special again.

Let's make it special again
Turn on some music and turn off the light
And go to bed real early and stay up all night
Open up a bottle of our favorite wine like we used to do
back then
Let's put it all back together and make it special again.

Let's put it all back together and make it special again...
