(Sue Lane)

When she was here by my side seems you just went  
flying by  
Oh time you're not a friend of mine  
It was you who took away the happiness of yesterday  
Oh time you're not a friend of mine.

Now she's gone we've loved our last it seems as  
though you'll never past  
Oh time you're not a friend of mine  
But if you could bring her back to me or take her from  
my memory  
Then time you'd be a friend of mine.

--- Instrumental ---

So many sleepless nights I've spent you never want to  
let them in  
Oh time you're not a friend of mine  
But if you could bring her back to me or take her from  
my memory  
Then time you'd be a friend of mine.

Time you're just a friend of mine...
