Seems like a good place to be
Me walkin' with You You walkin' with me
Me feelin' pain and You bringin' peace
And everything is alright

Seems like a sweet sweet thing
For You to whisper to me me to call out Your name
Me fallin' down and see Your love remains
And everything is alright

(Chorus)
Everything's alright everything's alright
Everything is alright
Everything everything's alright

Seems like a nice thing to think of
Just to sit and think on Your love
Me feelin' empty You fillin' me up
Everything is alright

Seems like a fine thing to wait on
Your loves always sings a sweet song
Eyes on Heaven hands up my heart longs
Come sing me home

O Your sweet love is comin' down
To put me up on solid ground
Where the cross is firm

Seems like a good place to be
Me walkin' with You You walkin' with me
Me feelin' pain and You bringin' peace
And everything is alright

Everything's alright
