Friday nite walking down the street  
Poisoned body to drunk to see  
You gonna live your life tonight  
Bring a knife to a gun fight  
Fuckin crazy, wont last the nite  
You better live your life or die

But you're running away,  
You keep running away,  
You keep running.  
Yeah you're runnin' away,  
You keep running away  
Running, Can't run away from me.

Pick a night just sitting at the bar  
Live to fast you wont get to far  
You're gonna talk some shit tonight  
When you see me  
You'll always turn and run  
You better live your life or die

But you're running away  
You keep running away  
You keep running  
Yeah you're running away  
You keep running away  
Runnin'

Can't run away from me  
You can't run away from me
