I want some one who will love me
You know she can reach out
Who believes that I'm the one to be?
That she can not live with out
To walk beside me when the shadows
Stops the light from getting thru
I want someone who will love me
Like I love you

Someone beautiful
Someone kind
Someone fitting your description
Keeps walking thru my mind
Keeps walking thru my mind

I want someone who will truest me
Walk beside me everywhere
Share the high ropes of my happiness

And my valleys of despair
Who will look into my gray skies?
And convince me they are blue
I want some one who will love me
And I want it to be you

Someone beautiful
Someone kind
Someone fitting your description
Keeps on walking thru my mind
Keeps on walking thru my mind

Someone beautiful
Someone kind
Someone fitting your description
Keeps on walking thru my mind
Keeps on walking thru my mind
