If you're afraid to touch my hand,
That's all right I understand,
All the changes you been through,
I've been rained on to,
You don't know you can't be sure
Believe me I've been there before,
Trust in me that's all you do,
I've been rained on to.

Like you I really loved some one,
Only to be walked upon,
By that lonely look I see,
You've been rained on just like me,
But I have made it through the storm
I know where you're coming from,
I'll take special care of you,
Cause I've been rained on to.
