Well I ain't been loved in a month of Sundays ever  
since you left me blue and lonely  
Tried to find somebody else but none would do  
My poor heart keeps on a yearnin' for your sweet love  
just started burnin'  
I ain't been warmed in a month of Sundays what about  
you  
Well a month of Sundays don't seem long when they're  
filled with love that's strong  
But each one seems forever when you're blue  
Well we both done a lot of things that we shouldn't  
Could've made up but we just wouldn't  
I ain't been loved in a month of Sundays what about  
you  
[ guitar - steel ]  
Well I traveled all over this big wide land looking for  
another just like I've planned  
But no one that I found compares with you  
Now I know I'll never love someone new baby do you  
feel the way I do  
I ain't been loved in a month of Sundays what about  
you  
Well a month of Sundays...
