"Which-A-Way"

Visit "[Which-A-Way](#)" on MotoLyrics.com

I'm standing by the street lights of the city wondering
which way I should go
You're to my right she's to my left and I'm like a smoke
ring that blows
Which a way which a way which a way do I go
I know if I should turn to my right hand I'll break a heart
and a home
But if I should turn to my left hand I'll break nobody's
heart but my own
Which a way which a way which a way do I go
[guitar]
My life is like the streets of the city dark deserted and
alone
My heart can't reach that decision and I'm caught
between right and wrong
Which a way which a way which a way do I go
