How big is life? Can it ride like the butterfly?
Star in the dust - rocketman - supersky
Sugar on the hill. Explode and never die. I think I will.
Come on take it! High - I gotta O yeah!
So high - I gotta O yeah! Come on!
So loosely illustrated. A trick of light. I demonstrated
right to you
what you do!
How high is up? Can it reach at the butterfly? Rise in the
howl hit
me cold - supersky
Witness the kill EXPLODE! Never die. I think I will.
Come on take it! High - I gotta O yeah!
So high - I gotta O yeah! Come on!
So loosely illustrated. A trick of light. I demonstrated
right to you
what you do YEAH!
Deaf to the ear. Fat city slang. Bloody ma growls
"concentrate the

bang"
Broadway do. The winter kills. Astro Creep'n you until.
Overcome the
devil.
Deluxe the game. One, sweep, spun "I got no name" a
paper thin cut.
On the edge of hell.
Wrestle with heaven but I never fell. Sink to a level
realize no
direction.
West of the moon I got no reflection.
Blood on the stone I do not surrender.
Wait'n for someone I do not remember.
Yeah! I gotta O yeah! Come on! So High - I gotta O
yeah! Come on!
So loosely illustrated. A trick of light I demonstrated
right to you
what you do!
Cosmic monsters waited. Turn around incorporated -
Right to...
