"Like Water"

One morning I woke up, looked over and
Kissed your shoulder
It felt so right
You didn't wake
I could see it in your face
You knew my intention right

Sometimes I swear our connection was made amongst
the stars
And makes me feel alive
Our love is powerful, so powerful
Moving mountains in the night
Oh, and I know sometimes this is hard for us
I know we sacrifice and get scarred, and cut, oh

I know it, I feel us moving
Let's never lose us this, this movement
Momentum is building, our union is fluid like water
Clean, clear, crisp, we got a love just like this, water
Our love is like water

Persecuted, and left - left out to live upon the edge like
How they left you, right? That's how they left you right?
I picked up the pieces
They left you in broken pieces on the floor
Glowing in holy light
And even though I know they love you very much
They don't love you more than me
This you can trust, oh

I know it, I feel us moving
Let's never lose this, this movement
Momentum is building, our union is fluid like water
Clean, clear, crisp, we gotta love just like this, water
Our love is like water

Like water, oh oh
I know it, I feel it, oh

I know it, I feel us moving
Let's never lose this, this movement

Momentum is building, our union is fluid like water
Clean, clear, crisp, we got a love just like this, water
Our love is like water

I know it, I feel us moving it
Let's never lose this, this movement
Momentum is building, our union is fluid like water
Clean, clear, crisp, we got a love just like this, water
Our love is like water
