Three and a half when we met for the first time  
A thing I can't remember but I know it anyhow  
Neighbours brothers, brothers for life  
Fell in love with the same girls in our hometown  
Nothing could part us, not one thing  
When we walked the streets of Norrk?ping

You were the first of us to make love 13'th of December  
'94  
Santa Lucia what was it like  
To have a girl in your boy room the whole night  
I hated you and your first girlfriend  
Thought I was alone in the world being a virgin  
A hard competition in all we did  
A complete war on the football field

You said that bananas could make us high  
Saved them in your locker till they got dry  
Remember how cool we felt  
Behind the corner smoking cigarettes  
Tanja killed herself, Benny had an overdose  
Niklas Karlsson got a new nose  
I hope you're all free wherever you might be  
We're all part of the history of Norrk?ping

I think we were about 17 when you said "money is  
gonna make me free"  
You pulled your pants up, no more baggy jeans  
No more football I'll go for the studies  
I met you again a few weeks ago  
You had a proper job and a place to call home  
You had earned your first grand  
And you looked like a real businessman  
You said "Yes things are different yes things have  
changed  
But I'll always love you it will always be the same  
And I know that there will be a time when we will be  
Back together in our hometown Norrk?ping"
