You only call me when you need something from me  
Like your name on a guestlist  
You only call me when you need something from me  
Like a drink and a dinner  
You only tell me about the love of your life  
And the kind of guys you're after  
You make sure that I know that I ain't your kind  
And that you'll never fall in love with me ever

First I thought you had it all  
Now I know you needed love  
First I thought then I stopped  
I thought you where too much  
Then I couldn't stay untouched.  
First I thought then I stopped

You ask me why, since when and how much  
When I tell you that I love you  
You ask med why, since when and how come  
When I tell you how much I need you  
You take a look around to see what you can find  
To find out if you will never be satisfied  
You make sure that I know that I ain't your kind  
And that you'll never fall in love with me ever

First I thought you had it all  
Now I know you needed love  
First I thought, then I stopped  
I thought you were too much  
Then I couldn't stay untouched  
First I thought, then I stopped

Loved her much, might love you more  
But please could you be her just for a little while  
Remind me of the times we had when love was all

Loved her much, might love you more  
But please could you be her just for a little while  
Remind me of the times we had when love was all

First I thought you had it all

Now I know you needed love  
First I thought, then I stopped  
I thought you were too much  
Then I couldn't stay untouched  
First I thought, then I stopped
