Well I fell on my knees I,  
fell down by my baby's side  
Well I fell on my knees I,  
fell down by my baby's side  
I cried goodbye baby,  
goodbye baby goodbye

Helped you when you was down there,  
and you could not help yourself  
You know I helped you when you was down there,  
and you could not help yourself  
Now that I'm down oh baby,  
you wanna help somebody else

You can treat me mean baby,  
do anything you wanna do  
You can treat me mean baby,  
do anything you wanna do  
'Cause someday you'll want me,  
and I won't want you. goodbye baby

Well I fall on my arms and,  
I slowly walk away  
Well I fall on my arms and,  
I slowly walk away, walk away  
Now that trouble you givin' me baby,  
comin' back on you someday

You know I felt so bad I,  
couldn't hardly walk down the street  
You know I felt so bad I,  
like a drunk man walkin' down the street  
You know my head was roaring,  
so bad I could hardly see, hardly see
