I'm not taking any more of this shit
Hey professor, professor please
I'm not a student I'm meant to be an artist
I'm a drop out I'm a drop out
I've never finished anything in my life
I'm a drop out, I'm a drop out
I'm a drop out, but I'm proud

Fighters don't quit and quitters don't fight
Oh yeah you're right
I've been a quitter all the time

Hey professor, professor please
I'm not taking any more of this shit
Hey professor, professor please
I'm not a student I'm meant to be an artist
My friend's new girlfriend, she's so good looking
It is a bit embarrassing
How I'd like to sleep with my friend's girlfriend

Fighters don't quit and quitters don't fight
Oh yeah you're right
I've been a quitter all the time

You should move abroad
You would love New York
There's a million more girls worth fighting for
Well it's good for them
Tell them all good luck
I know what I had and I know what I want

Fighters don't quit and quitters don't fight
Oh yeah you're right
I've been a quitter all the time
