Obviously something's gotta be done  
I'm such a drama queen  
Every time time time we meet  
And you don't give a shit

A junkie, an addict, a slave for your love  
But I'm not in love  
I'm just obsessed  
With hearing you say "yes please Markus come to me"

I'm high on you and on drugs  
It is the worst combination of addictions  
High on you and all drunk  
This is were I make my big mistakes

Obviously something's gotta be done  
Or else I'll end up  
Like one big bleeding heart  
And that's not good at all

Bought myself a video game  
To get entertained  
In an easy way  
But I saw through that I'm far too smart to get fooled by  
myself

I'm high on you and on drugs  
It is the worst combination of addictions  
High on you and all drunk  
This is were I make my big mistakes

The worst combination of addiction
