This is a thing between me and god
I don't believe in you, you put no
Trust in me

And the angels they send our falling without wind

Living in a car and I can't feel sad
I'm waiting for the love that I've never had
Living in a car and I can't feel sad at all
Soon it will be solved

This is a mather of life and death
But I can't care less
Everything's seem othersense

And the angels send our falling without wind

I'm living in a car and I can't feel sad
I'm waiting for the love that I've never had
Living in a car and I can't feel sad at all

Living in a car and I can't feel sad
I'm waiting for the love that I've never had
Living in a car and I can't feel sad at all
Soon it will be solved
