"X-Ray"

I watch your window for hours
Moon has set down without us
All by ourselves riding in the front seat,
Watch the sun come up
All by ourselves we would run
Remember?
It was so long ago
Remember baby?
It was a long time ago

Feel your hand close beside me
Hear the highway behind me
All by ourselves we made love under the,
Sleeping moonless night
All by ourselves we would run
Remember?
It was so long ago
Remember baby?
It was a long time ago
I couldn't stop you crying
Or stop myself from fighting back
I tried but never hard enough
Don?t you remember, love?
Don?t you remember, love?

All by myself I can see it like,
it's right before my eyes
All by myself time goes by
Remember?
It was so long ago
It was a long time ago.

How come you never look at me no more?
Take it easy, babe. Go slow now
How come you never touch me anymore?
Take it easy, you don't want to know now.

How come you never break the skin no more?
Take it easy, babe. Don?t go now
How come you never let me in no more?
Take it from me; I?ll break it to you slow now.

She looks through me like an x-ray
Like a fire burning out of the fireplace
She looks through me like an x-ray
I?m saying all the right lies to the wrong face

How many faces can you fake, boy?
How many lies? How many know now?
Say how can you never make a choice?
I?ll break it to you slow, now

She looks through me like an x-ray
Like a fire burning out of the fireplace
She looks through me like an x-ray
Like a surgeon come tearing at my heartbreak

Don?t be seen with me
She sees everything
Don?t be seen with me
She sees everything

She looks through me like an x-ray
Like a fire burning out of the fireplace
She looks through me like an x-ray
Like a surgeon come tearing at my heartbreak
Break, break, break it all
Take, tear it, tear it down
Break, break, break it all
Take, tear it, tear it down.
