Now I have a skin that steams off rain,
And a heart, that as a sore spot

So I talk to keep you near, just to keep you (just to keep
you near)
So I talk to keep you near, just to keep you

Now I have a heat that burns off the cold,
And eyes that see through you

So I talk to keep you near, just to keep you (just to keep
you near)
So I talk to keep you near, just to keep you (just to keep
you near)
So I talk to keep you near, just to keep you (just to keep
you near)
So I talk to keep you near, just to keep you (just to keep
you near)
