My my what a treat you are
Your magnetic attraction's energising me dead
Keep keep spoiling me
Keep on feeding my ego 'til I'm over the edge
My favourite enemy
I'm enjoying your lies so much it's killing me
I, I'll lie; I'll fool and lie to make you like me more
My my what a tease you are
Your hypnotic attentio's paralysing me faint

Keep, keep adoring me
Keep on kissing my ass till I'm unbearably vain
Now you should envy me
Now I'm learning to lie so well it's killing me
My my what a freak you are
Tried to dazzle and angel, got a bitch on your tail
Don't go defending me
I'm enjoying this kill so much it's killing me
