Rear things may draw to near,
Surprise, surprise, I fill your ear,
Naughty, stupid listener,
I will cling right to your nerve

I will null you till the dawn,
And all day until you're gone,
Dri-dri-driving all of me,
Our drive just tickles me

I know you never will like,
I know you never will like,
I know you never will like,
I know you never will like.. Me

Catch me, choke me, kill my voice,
I'll remain your inner noise,
Rip your ears I'll tear you brain,
I will stick, you rage in vain

I know you never will like,
I know you never will like,
I know you never will like,
I know you never will like.. Me

(Catch me, choke me, kill my voice)
(Catch me, choke me)
