Control is the name of the game
You really can't go too far
Or else you won't be the same &
You won't have no one else to blame
Future sound - today
Yes, here, today
Limited, sparse atmosphere
Locked in too long with no fear
Shake out, break out, get it back now

Set the pace, energize, attack now - attack
Future sound - future sound
There's only one time to go around
You've got to indentify with the sound
Future sound
Future sound - today.
