What if we moved
What if we wandered
Took a reckless ride to the other side
Of the tracks

What if we knew somebody's story
Would we write them off like a number
On a check

Or could we be the only souls
Who take the time to love and find
The beauty in a nameless face

(CHORUS)

One, it just takes one
To step out from the crowd, and show
What love is all about
One, it just takes one
To change a life forever,
Touch the world and make it better

So what if we moved with no hesitations
And learn to love the least of these without reserve
Let's spark a change in this generation
And let our actions speak louder than our words

And what if there's a world in need of hope
That only we can bring
Brighter than the midday sun

(CHORUS)

One, it just takes one
To step out from the crowd, and show
What love is all about
One, it just takes one
To change a life forever,
Touch the world and make it better

It just takes one
It just takes one
It just takes one

(CHORUS)

One, it just takes one
To step out from the crowd, and show
What love is all about
One, it just takes one
To change a life forever,
Touch the world and make it better

(CHORUS)

One, it just takes one
To step out from the crowd, and show
What love is all about
One, it just takes one
To change a life forever,
Touch the world and make it better
