They, they took your breath you look  
Like a hopeless mess but I be with you  
Or did you think that I will go away when your blood is  
everywhere  
No, I'm here to say

Come on lady, do it again  
Be my ebony pearl and try to forget what was  
Just try to forget what was  
We will be together even on our knees

Swear you be forever I beg you please hold on  
I'm begging you to hold on

You lie in my arms  
I will try to keep you warm till then  
Nothing harms  
I hope that no goddess takes you away  
Just wait for a short delay  
And for you to say
