"Love Never Dies"

Visit "[Love Never Dies](#)" on MotoLyrics.com

Liebe stirbt nie!

Iâ´m sure that I know you
It even seems like centuries
Perhaps we know each other
For a million years now
Maybe I met you long before the human race
But today I feel like I saw you the first time.
Love never dies!

Why donâ´t you believe me
It is so hard to explain
Centuries have passed
My life was cold and empty
Now Iâ´m back again and everything is strange
But one thingâ´s still true:
Our love will last forever!
Love never dies!

Now we are together
And no power in this world
Will ever have the might
To come again between us
Our life will start from now on to forever
Once again weâ´ll fly together into infinity!
Love never dies!
