Slip out the door and fly  
I'm lost in time I hover  
as an angel, I hover

Embracing all myself I reel  
through the storm that is shaking me  
I don't know where  
I don't know why  
I know I'm not going to fall

And butterflies are flying (fly away)  
right beside me  
as I ascend to the clouds

No, I won't delay

no, I won't delay  
time is like a knife for me now  
I just won't delay

Time is mine  
I got the blade  
change your mind  
I'll make you stay

Butterflies are flying  
and I just won't delay
